

ENDCONFERENCE

17-18 MAY 2019

The Homo'poly conference aims to contribute towards a better understanding of homosexuality in secondary and higher education. The conference targets lecturers at teaching colleges and universities, teachers in secondary education, policy makers and representatives of sector organisations.

Conference participants will obtain insights from a large comparative analysis in 8 European countries. All contributions – keynotes, paper presentations and workshops - are linked to different aspects of inclusion and inequality, especially LGB(T+), gender and education.

The practical workshops provide insights on didactical materials for secondary education.

The conference takes place on the IDAHO day and is organised by all partners of the Homo'poly network (www.homopoly.eu) and the research centre Leuven Economics of Education Research (LEER) of the Faculty of Economics and Business, KU Leuven.

KU Leuven
Faculty of Economics and Business
Naamsestraat 69, 3000 Leuven
